The Will Bright Foundation is a 501c3 addiction recovery nonprofit with its mission being "breaking all barriers from addiction to recovery", We use our mission to fill a need in central and west Alabama to provide an opportunity for men fresh out of recovery a place so that they can take the transitional next step on their recovery journey. That's why we created Restoration Springs.

Located in Fayette, Alabama, Restoration Springs offers a fresh start to our residents by providing them with housing, employment, transportation, psychosocial support and more.

As well as our transitional living program, we also provide scholarships to those unable to afford intake fees to recovery centers and provide advocacy and awareness on the ongoing information surrounding the opioid crisis.
